Doña Ana Community College
Career Ladder Nursing Program
STUDENT ACHIEVEMENT DATA

Program Outcome 1: Program's mean first-time RN pass rate for the three most recent years at or above the most recent annual national mean pass rate (ACEN, Standard 5.4)

Licensure Pass rates by Calendar Years

RN[1]	2021		2022		2023		Program 3-year pass rate Total		National Pass Rate for A.D.N
Type of Candidate	Count	Percentage	Count	Percentage	Count	Percentage	Count	Percentage	Percentage
First-time test takers Associate Degree	44	77.27%*	51	76.47%*	36	94.44%	131	85.37%%	87.5%
PN[2]	2021		2022		2023		Program 3-year pass rate Total		National Pass Rate for PN
Type of Candidate	Count	Percentage	Count	Percentage	Count	Percentage	Count	Percentage	Percentage
First-time, Test takers PN Certificate	3	100%	7	100%	16	93.75%	26	97.91%%	86.67%

The 2021 and 2022-year performance was below our program expected state level of achievement of 80%. The DACC Nursing Program implemented a Plan for Performance Improvement with the goal of a return to rates above 80% in upcoming report year.

rogram Outcome 2:** 75% of full-time students persisting in the Nursing program will complete program by 100% of program length as per MBON rules. Data will be trended by admitting cohort for RN and PN programs (ACEN, Standard 5.2)

RN Table Completion rates by calendar year ((% of entering students who complete within 100% of time)

Academic Year	100% Completion Rate
2022	84%
2023	85%
2024	TBD

PN Table Completion rates by academic year (% of entering students who complete within 100% of time)

Academic Year	100% Completion Rate
2022	84%
2023	78%
2024	TBD

Table RN represents the graduation rates for graduates of the Career Ladder program. The Licensed Practical Nurse program is a bridge program that is a concurrent track to completion of the ADN program. Because 100% of students who have transferred from the ADN entry track to the LPN exit track have been successful in completion of the LPN certificate requirements, the LPN-RN bridge program completion numbers are reflected in the ADN program graduation rates
