

**MISSION STATEMENT:** The mission of the DACC Radiologic Technology Program is to provide students with the academic knowledge and clinical skills necessary to attain eligibility for certification and meaningful employment within the diagnostic medical imaging profession.

**Associate Degree Radiologic Technology Program Goals and Student Learning Outcomes:**

Fulfillment of the program mission is assessed by the degree to which the program achieves the following goals and learning outcomes:

**Goal 1:** Students will be clinically competent.

*Student Learning Outcomes:*

- Students will demonstrate the ability to produce diagnostic radiographic images safely.
- Students will be able to position patients and identify radiographic anatomy and pathological conditions appropriately.

**Goal 2:** Students will communicate effectively.

*Student Learning Outcomes:*

- Students will demonstrate effective communication skills.
- Students will accurately document/record data in accordance with clinical site policies and procedures.

**Goal 3:** Students will use critical thinking and problem-solving skills.

*Student Learning Outcomes:*

- Students will demonstrate the ability to use independent judgment.
- Students will analyze radiographic images for technical and positioning accuracy to make modifications as needed.

**Goal 4:** Students will model professionalism.

*Student Learning Outcomes:*

- Students will conduct themselves professionally to function effectively as healthcare team members.
- Students will identify various opportunities for professional growth within medical imaging sciences.
