

Welcome from the Vice President for Academic Affairs

Dear new faculty members,

Welcome to Doña Ana Community College! I still remember my first weeks as a new faculty member and I know it is an exciting time for you.

Whether you are a new part-time or full-time faculty member, it is the goal of the Office of Academic Affairs to provide you with the training and support you need to succeed. We want every faculty member to grow and thrive as an educator during their time at the college. Your success in the classroom is essential to our mission of being a student-centered institution.

An excellent committee of faculty and professional staff have thoughtfully developed the New Faculty Experience. It includes an introduction to the college, ACUE training in the basics of teaching, and detailed instruction in how to use Canvas and teach online. I know that you will find the experience to be helpful and a good use of your time.

Congratulations on your appointment as a faculty member at Doña Ana! I wish you all the best in the classroom and as a member of the college community.

Sincerely,

Michael Pullin, Ph.D.

Vice President for Academic Affairs
