DACC NMSU SECURE WIRELESS INTERNET

ANDROID DEVICES INSTRUCTIONS

Go to the Wi-Fi Settings and select DACC NMSU

You will need to click on Advanced Settings to see all of the settings

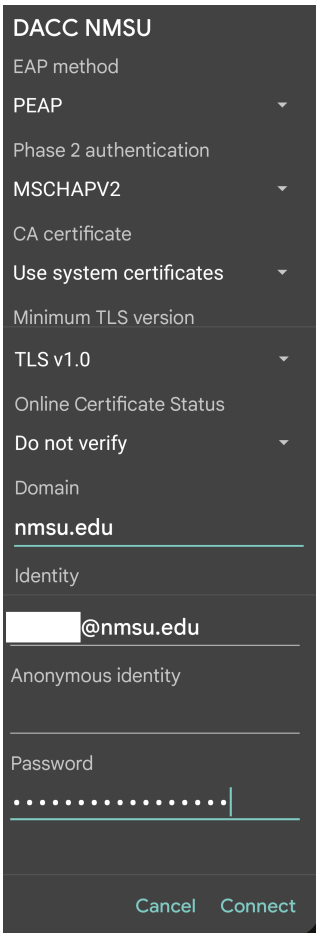

Some Android devices have setting in different areas. (*The picture shows some of the fields that are required to be set up.)*

Your **NMSU username** should be used in the Identity field.

Make sure there is nothing entered in the Anonymous Identity field. If there is, please delete it.

Enter your NMSU password and then Connect.

If there's a certificate pop-up, please accept or trust it.
